

5

List of Speakers

The list shows all speakers with the title of their talk sorted alphabetically according to the name of the speaker. The page reference points to the abstract of the talk.

- Ageev, Alexander A.:** *Approximation Algorithms for Single and Two-Machine Flow Shop Problems with Exact Delays* 90
- Ahr, Dino:** *Solving the Min-Max k -Chinese Postman Problem to Optimality* 122
- Ahuja, André:** *Risiko- und Konfliktmanagement im IT-Projekt* 90
- Andersson, Per-Åke:** *Multi-Year Planning of Maintenance Operations of Public Roads* 80
- Anjos, Miguel:** *Solving the Satisfiability Problem Using Semidefinite Programming* 122
- Arkin, Vadim:** *Optimal Stopping Approach to Investment Timing Problem* 137
- Armenia, Stefano:** *Service Quality and Customer Abandonment: A System Dynamics Approach to Call Center Management* 112
- Asseburg, Holger:** *Relative Performancebewertung auf Oligopolmärkten* 153
- Baburin, Alexei Y.:** *A 3/4-Approximation Algorithm for Finding Two Disjoint Hamiltonian Cycles of Maximum Total Weight* 122
- Badegruber, Thomas:** *New Aspects of Learning Speed and Convergence in the Santa Fe Artificial Stock Market* 151
- Bäuerle, Nicole:** *New Control Problems in Insurance Mathematics* 24
- Baier, Daniel:** *Linking Conjoint Analysis and Quality Function Deployment for Optimal Product Design* 98
- Baptiste, Philippe:** *Recent Advances in Constraint Based Scheduling* 24
- Bartels, Patrick:** *Financial Market Web Mining with the Software Agent PISA* 158
- Bauer, Ralf:** *On the Decision-Oriented Assignment of Common Cost* 153
- Beck, Sebastian:** *Ein entscheidungstheoretischer Ansatz zur Bewertung von Fuzzy-Regeln* 141
- Behrens, Sven:** *Effizienzuntersuchungen in Losgrößenmodellen* 66
- Behrens, Sven:** *Zur Manipulierbarkeit von Ergebnissen der Data Envelopment Analysis* 154
- Békési, József:** *Scheduling Identical Coupled Tasks: An Exact Algorithm* 123
- Belousov, Evgeny:** *On Types of Convergence of Penalty Functions Method* 114
- Belov, Gleb:** *Number of Different Patterns and Open Stacks in One-Dimensional Stock Cutting* 123
- Bickel, Steffen:** *Optimierung von Sicherheitsbeständen in Supply Chains mit Simulation* 28
- Bilgen, Bilge:** *Mixed Integer Programming (MIP) Approach for Distribution System Planning Problem* 67
- Bley, Andreas:** *A Lagrangian Approach for Integrated Network Configuration and Routing Planning in IP Networks* 64
- Bock, Stefan:** *Real-Time Control of Transportation Network* 67
- Bomhardt, Christian:** *Web Robot Detection* 98
- Bong, Cheng-Siong:** *Production Planning under Dynamic Environment: An Integrated Framework Approach* 67
- Born, Stefan:** *Optimal Discretization of Quantitative Attributes for Association Rules* 98
- Borndörfer, Ralf:** *Solving Duty Scheduling Problems in Public Transit* 123
- Bortfeldt, Andreas:** *Ein genetischer Algorithmus für das zweidimensionale Strip-Packing-Problem* 123
- Bradt, Peter:** *Simulation in Management* 112
- Brandt, Manfred:** *On the Two-Class $M/M/1$ System under Preemptive Resume and Impatience of the Prioritized Customers* 137
- Brandt-Pollmann, Ulrich:** *Time Lags in Capital Accumulation* 147
- Branger, Nicole:** *Tractable Hedging – An Implementation of Robust Hedging Strategies* 107
- Brecht, Winfried:** *Optimale Allokation von Aufgaben und Ressourcen in Servicebereichen* 81
- Breitner, Michael H.:** *WARRANT-PRO-2: A GUI-Software for Easy Evaluation, Design and Visualization of European Double-Barrier Options* 107
- Brieden, Andreas:** *Consolidation of Farming by Means of Norm-Maximization* 124
- Brosche, Carmen:** *Testen kausaler Effekte* 147
- Brucker, Peter:** *Decomposition of Railway Scheduling Problems* 90
- Bruns, Thomas:** *Steuerung von Investitions- und Absatzentscheidungen über Verrechnungspreise* 28
- Buchholz, Jens:** *Optimal Machine Scheduling in a Shipyard* 91
- Buscher, Udo:** *An Economic Production Quantity-Model for a Multi-Stage Production System with Defective Items and Rework* 68

- Buss, Hinderk:** *Relaxation Schemes for Constrained Variational Problems in Dual Formulation* 115
- Bussieck, Michael:** *Global Optimization with GAMS - Applications and Performance* 115
- Cardeneo, Andreas:** *An IP/CP Solution Procedure for the Vehicle Routing Problem with Alternative Drop Points and Time Constraints* 81
- Cheng, Tak Sum:** *Infinite-Horizon Stochastic Control for Problems with Randomly Furcating Payoffs* 148
- Cook, Thomas:** *Augmented Revenue Management* 23
- Costa, João Paulo:** *Reference Points and the Computation of Non-Dominated Solutions in MOLFP* 115
- Crainic, Teodor Gabriel:** *City Logistics, Issues, Models and Methods* 26
- Daduna, Joachim R.:** *Personal- und Fahrzeugeinsatzplanung in der Müllentsorgung* 81
- Daugart, Jan:** *Unternehmenssteuerung mit undifferenzierten Anreizsystemen* 154
- DeSarbo, Wayne S.:** *Evolutionary Preference/Utility Functions: A Dynamic Perspective* 26
- Decker, Reinhold:** *Identifying Patterns in Buying Behavior by Means of Growing Neural Gas Network* 99
- Defregger, Florian:** *Revenue Management in Manufacturing* 59
- Degenhardt, Jan:** *On Maximal Edge-Disjoint Cycle Decompositions in Graphs* 124
- Demidenko, Vitali:** *The Quadratic Assignment Problem: Reaching the Optimal Solution using Pairwise Permutation* 124
- Dempe, Stephan:** *A Mixed-Discrete Bilevel Programming Problem* 116
- Devjak, Srečko:** *A Multi-Criteria Prioritization of Investment Projects of a Municipality under Linguistic Information* 141
- Dierkes, Stefan:** *Die Konzeption operativer Planungsrechnungen aus kapitalmarkttheoretischer Sicht* 154
- Ding, Xiaosong:** *Non-Linear Programming Solvers for Decision Analysis Support Systems* 158
- Dmitruk, Andrei:** *A Refined Existence Theorem for Optimal Control Problems with Infinite Horizon* 116
- Doege, Jörg:** *Using Financial Engineering for the Valuation of Operational Flexibility* 108
- Dörband, Robert:** *Revenue Management in der Gaswirtschaft* 59
- Dörner, Karl:** *Artikelanordnung bei Mann-zur-Ware-Kommissionierung* 68
- Dohmen, Lothar:** *Ein mathematisches Simulationsmodell für die Abfuhrplanung in der kommunalen Abfallentsorgung* 82
- Dorflleitner, Gregor:** *How Short-Termed is the Trading Behavior in German Futures Markets?* 108
- Drawe, Michael:** *Tourenplanung bei vager Nachfrage* 142
- Dupacova, Jitka:** *Stochastic Programs with Decision-Dependent Probability Distributions* 137
- Ehrgott, Matthias:** *Optimization of Cost and Robustness in Airline Crew Scheduling* 91
- Eichberger, Jürgen:** *Game Theory with Non-Expected Utility Preferences* 27
- Eichhorn, Andreas:** *Stochastic Programs and Coherent Risk Measures: Stability and Decomposition Approaches* 138
- Eisenblätter, Andreas:** *Models for UMTS Radio Network Planning* 64
- Elendner, Thomas:** *A Lagrangean Heuristic for the Weighted Job Interval Scheduling Problem* 91
- Elhafsi, Mohsen:** *Assignment and Dynamic Loading of Chemical Products to Bulk Tankers* 69
- Euler, Reinhardt:** *Solving Weighted Stable Set Problems by the Simplex Method* 125
- Fabri, Anke:** *On Dynamic Pickup and Delivery Vehicle Routing with Several Time Windows and Waiting Times* 82
- Faißt, Bernd:** *The Impact of the Exchange of Market and Stock Information on the Bullwhip Effect in Supply Chains* 69
- Fanghänel, Diana:** *Regions of Stability for Nonlinear Discrete Optimization Problems* 125
- Farkas, Zoltan:** *On an Optimum Invariance Property of Synthesizing Decisions by using Method "Optimization with Minimal Information"* 148
- Feller, Jens:** *Optimal Threshold Policies and an Online Decision Rule for Multidimensional Resources in Revenue Management* 59
- Fernando Gonçalves, José:** *A Random Key Based Genetic Algorithm for the Resource Constrained Project Scheduling Problem* 91
- Fichtner, Wolf:** *Entwicklung und Anwendung einer mehrstufigen Methodik zur Analyse betriebsübergreifender Energieversorgungskonzepte* 103
- Fink, Claudia:** *Modellanalytische Preis-Gleichgewichtsbeziehungen auf Kassa- und Terminmärkten* 108
- Fledderus, Erik R.:** *Snapshots for Planning and Evaluation of Cellular Networks* 65
- Fleischmann, Moritz:** *Coordinating Inventory and Pricing Decisions when Customers Stockpile* 60
- Fleßa, Steffen:** *Many Worlds of Health: A System Dynamics Model of the Epidemiological Transition* 103
- Fliege, Jörg:** *Some Computational Issues in Multicriteria Optimization* 27
- Freitag, Roman:** *Steady State Probabilities for Queues with Total Desasters and Poisson Input Streams* 138
- Friedl, Gunther:** *Incentive Properties of Residual Income when there is an Option to Wait* 155
- Fröhling, Magnus:** *Mass- and Energy-Flow Orientated Master Production Scheduling* 103
- Fügenschuh, Armin:** *Simultaneous Optimization of School Starting Times and Public Bus Services* 82
- Galia, Rastislav:** *Column Generation for Crew Pairing* 83
- Galiano, Graziano:** *A Metaheuristic Approach for Hazardous Materials Transportation* 83
- Galiano, Graziano:** *A Cumulative Genetic Algorithm to Solve Combinatorial Auction* 151
- Garn, Wolfgang Walter:** *A Real-World S-MD-mVRP-TW* 83
- Gassner, Elisabeth:** *A Fast Algorithm for a Parametric Assignment Problem and Applications to Max-Algebra* 125
- Geerdes, Hans-Florian:** *Capacity Improvements in TDMA-based Cellular Networks by Relaying and Flexible Transmission Scheduling* 28
- Geldermann, Jutta:** *Produktprogrammplanung in Unternehmen der Lackproduktion unter besonderer Berücksichtigung der Auswirkungen neuer umweltgesetzlicher Regelungen* 104

- Giensch, Peer:** *Optimization Models for the Containership Stowage Problem* 125
- Gimadi, Edward:** *An Approximation Algorithm for a Metric Problem of Finding Two Disjoint Hamiltonian Cycles of Minimum Weight* 126
- Gnutzmann, Stefan:** *Standortplanung der Ticketautomaten zur elektronischen LKW-Maut* 84
- Görtz, Simon:** *Solving Capacitated Facility Location Problems by Means of Branch-and-Price-and-Cut* 126
- Gogvadze, George:** *Interactively Learning Operations Research Methods with ActiveMath* 159
- Gordon, Valery:** *Single Machine Scheduling with Precedence Constraints and Due Date Assignment* 92
- Gotzel, Christian:** *Policy Approximation for the Production Inventory Problem with Stochastic Demand, Stochastic Yield and Production Leadtime* 69
- Gouda, Ashraf A.:** *New Sampling Techniques and Variance Reduction Monte Carlo Simulation Algorithms for Dirichlet Distribution* 113
- Gruber, Gerald:** *Solving Large Scaled Combinatorial Optimization Problems* 126
- Grünert, Tore:** *Local Search for Vehicle Routing and Scheduling Problems (Part II): Search Techniques* 84
- Grünert, Tore:** *Generic Modelling and Algorithms for Real-World Vehicle Routing and Scheduling Problems* 84
- Grunow, Martin:** *Konfiguration von Anlagen der Elektronikmontage mit Hilfe objektorientierter Simulation* 113
- Günther, Hans-Otto:** *Einsatzplanung für medizinisches Personal in klinischen Studien* 104
- Gugat, Martin:** *Problems of Optimal Control in Flood Management* 117
- Guigues, Vincent:** *Application of Robust Counterpart Technique to Production Management* 92
- Guttenberger, Siegfried:** *Die Auswahl von Produktionsmaschinen mit Hilfe eines Fuzzy-Entscheidungsunterstützungssystems* 142
- Habenicht, Ilka:** *Scheduling Jobs with Reentrant Flows Using Lagrangian Relaxation Techniques* 69
- Helbing, Dirk:** *Models and Experiments of Dynamic Decision Behavior* 25
- Hellermann, Rolf:** *Application of Capacity Options for Air Cargo Revenue Management* 60
- Hernadvolgyi, Istvan:** *Solving the Sequential Ordering Problem with Automatically Generated Lower Bounds* 127
- Hilbert, Andreas:** *Ein Modell zur Erklärung der Kundenbindung im Automobilssektor* 99
- Hoberg, Kai:** *Analyzing the Behavior of Supply Chains in Response to Stationary and Non-Stationary Demand: A Control Theoretic Approach* 70
- Hoesel, Stan van:** *Tarification of Connections in Telecom Networks* 65
- Hofmann, Christian:** *Gestaltung von Erfolgsrechnungen zur Steuerung langfristiger Projekte* 155
- Homberger, Jörg:** *Ein hybrider genetischer Algorithmus zur Transportdisposition im Lieferservice* 85
- Huang, Guanwei:** *K-Pool: Concepts for Interfacing Knowledge Management and Decision Support based on Contextual Collaboration and Web Technology* 159
- Irnich, Stefan:** *Local Search for Vehicle Routing and Scheduling Problems (Part I): Neighborhoods* 85
- Ivanenko, Dmitry:** *Lower and Upper Bounds for the Bilevel Capacitated Facility Location Problem* 127
- Izhutkin, Victor:** *Methods for Correction of Solution Nonlinear Optimization Problem with Small Data Perturbations using Reduced Direction* 117
- Izhutkin, Victor:** *Parallel Multimethod Technology for Solving Nonlinear Constraint Programming Problems* 117
- Jahn, Johannes:** *Connections between Semidefinite Programming and Vector Optimization* 118
- Jana, R. K.:** *A Multi-Product Production Repair Model and its Solution using Hybrid Algorithms* 92
- Janiak, Adam:** *Scheduling Jobs with Time and Resource Dependent Processing Times* 92
- Janiak, Adam:** *Scheduling Multiprocessor Tasks in the Hybrid Flow Shop* 127
- Jodlbauer, Herbert:** *The Influence of Inventory Deviation on Lead-Time and Utilization* 70
- Junglas, Daniel:** *Optimization Methods for UMTS Radio Network Planning* 65
- Kaletta, Peter:** *Structural Optimization in Aircraft Engineering using Support Vector Machines for Design Classification* 142
- Kanet, John:** *Precedence Theorems for One-Machine Weighted Tardiness* 93
- Kankova, Vlasta:** *A Remark on Multiobjective Stochastic Optimization Problems: Stability and Empirical Estimates* 138
- Khachiyan, Leonid:** *Generating Spanning Cones and Strongly Connected Digraphs* 127
- Kharraziha, Hamid:** *Large Scale Crew-Rostering* 85
- Kiesmüller, Gudrun:** *Coordinated Transportation and Inventory Management in Supply Chains* 70
- Kiseleva, E.:** *The optimal set partitioning method for the construction of the optimal quadrature formulae* 138
- Klau, Gunnar W.:** *Human-Guided Search: Survey and Recent Results* 128
- Kleber, Rainer:** *A Dynamic Model for Choosing the Optimal Technology in the Context of Reverse Logistics* 71
- Klein, Christian:** *Der Einfluss von Handelssystemen auf die Volatilität eines Investments* 109
- Klein, Robert:** *Revenue Management und Dynamic Pricing im Rahmen der GOR (Diskussion)* 60
- Kleinau, Peer:** *Deriving Inventory Control Policies for Periodic Review with Genetic Programming* 71
- Kleindienst, Erich:** *Aggregation of Demand in Supply Chain Management using Approximated Shadow Prices* 71
- Kleine, Andreas:** *Conditional Value-at-Risk bei diskreten Zufallsvariablen* 109
- Kliwer, Natalia:** *Mehrdepot-Umlaufplanung für ÖPNV-Betriebe* 86
- Klohr, Volker:** *Planning Methodology and Optimization Approaches for Supply Chains in the Automotive after Sales Business* 71
- Knust, Sigrid:** *Complexity Results for Flow-Shop Problems with a Single Server* 93
- Köppe, Matthias:** *Exact Primal Algorithms for General Integer and Mixed-Integer Linear Programs* 28
- Kogelschatz, Hartmut:** *On the Leontief Inverse of a Beta Distributed Input Matrix* 148
- Kolisch, Rainer:** *Central vs. Decentral Scheduling of Research Projects* 93

- Kolokolov, Alexander:** *Analysis and Solving the Satisfiability Problem using L-partition* 128
- Kolokolov, Alexander:** *Stability Analysis of Some Integer Programming Algorithms* 128
- Kolpakov, Alexander G.:** *Computational Geometry and Design of Control System for Smart Structures* 129
- Korkishko, Natalie:** *Three-Index Axial Assignment Problem on Single-Cycle Permutations: Feasible Solutions and Approximation Algorithms* 129
- Korn, Evelyn:** *Zur Durchsetzung des Arm's Length Grundsatzes – Eine Win-Win Situation?* 155
- Korn, Ralf:** *Recent Developments in Continuous-Time Portfolio Optimization* 27
- Kotov, Vladimir:** *Semi On-Line Problems on Identical Machines* 93
- Kovalyov, Mikhail Y.:** *Scheduling Two-Machine Flowshop with one Inavailability Interval* 94
- Kozik, Andrzej:** *A Survey of Optimization Problems in Automatic Leaf-Cells Synthesis Techniques for VLSI Chips Production* 129
- Krätschmer, Volker:** *Least Squares Estimation in Linear Regression Models with Vague Concepts* 149
- Kraft, Holger:** *Optimal Portfolios with Stochastic Volatility* 109
- Krapp, Michael:** *Zur Manipulationsresistenz kollektiver Entscheidungsregeln* 155
- Kroll, Frank:** *Integrated Procurement and Production Optimization in the Meat Processing Industry* 72
- Krysiak, Tomasz:** *A Single Processor Scheduling Problem with a Range-Linear Model of Loss of Job Value* 94
- Krysiak, Tomasz:** *Scheduling Jobs with a Stepwise Function of Change of Their Values* 130
- Kubitschek, Frank:** *Genetic Algorithm Fitness Functions for the Nesting Problem* 130
- Küfer, Karl-Heinz:** *A Multiple-Objective Optimizer for Clinical Radiation Therapy Planning* 104
- Küpper, Hans-Ulrich:** *OR und Controlling - Der Beitrag quantitativer Theorie zur Selbstfindung und Akzeptanz einer praxisorientierten Disziplin* 23
- Kulmann, Friedhelm:** *Ein informationstheoretisches Modell assoziativer Strukturen - Anbieter und Sortimente in der Kundenwahrnehmung* 143
- Ladner, Klaus:** *Suche einer Signalfolge einer Verkehrslichtsignalanlage mit Hilfe eines Zustands- /Schichtgraphen* 86
- Langella, Ian M.:** *Evaluating the Performance of Heuristics for the Disassemble-to-Order Problem* 72
- Lee, Hsuan-Shih:** *Aggregation of Comparison Matrices in AHP under Group Decision Making Environment* 149
- Leisten, Rainer:** *Aspects of Coordinating Program Planning and Lot-Sizing in Production Planning* 73
- Lemarechal, Claude:** *On a primal-proximal heuristic in combinatorial optimization. Application to unit-commitment* 118
- Lepin, Victor:** *Approximation Algorithms for Hypergraph Layout Problems* 130
- Lichtenstein, Maciej:** *Optimal Resource Distribution in Scheduling Problems with Resource Dependent Setup and Processing Times* 94
- Lindberg, Per Olov:** *Convexification of the Traffic Equilibrium Problem with Social Marginal Cost Tolls* 86
- Lindenmeier, Jörg:** *The Influence of Revenue Management Techniques on Customer Relations* 61
- Loucopoulos, Constantine:** *A New Mathematical Programming Approach for the Minimization of Misclassification Costs* 149
- Lourenço, João:** *An Interactive Weighted-Sum Algorithm for Solving Multiple Objective Linear Fractional Programming Problems* 118
- Lübbecke, Marco:** *On Compact Formulations for Integer Programs Solved by Column Generation* 130
- Luhmer, Alfred:** *Investing in the Agent's Productivity* 156
- Lukas, Christian:** *Executive Pay: Prior Successes and Future Incentives* 156
- Machowiak, Maciej:** *Preemptable Malleable Tasks Scheduling Problem* 95
- Madi-Nagy, Gergely:** *Multivariate Lagrange Interpolation and its Application for Bounding Multivariate Discrete Moment Problems* 139
- Mahalel, David:** *Behavioural Aspects at Signalized Intersections during the Intergreen Period* 87
- Malek, Alaeddin:** *Optimal Design of Wide Flange Cross Sections Based on Newton-Gradient Projection Technique* 119
- Martin, Roland:** *A Modeling Approach for the Automated Manufacturing of PC Boards* 73
- Mathar, Rudolf:** *On the Capacity and Optimization of UMTS Networks* 26
- Mattfeld, Dirk Christian:** *Task Scheduling under Gang Constraints* 95
- Meißner, Jörn:** *A New Resource Formulation of Multi-Product Revenue Management* 61
- Meißner, Jörn:** *Partitioning Heuristics for the Multi-Item Capacitated Lot Size Problem* 73
- Melo, Teresa:** *Dynamic Multi-Commodity Facility Location: A Mathematical Modelling Framework for Strategic Supply Chain Planning* 74
- Mestel, Roland:** *Trading Volume and Stock Return Volatility* 109
- Michaelis, Lea:** *Using Choice Data to Model Preference Changes* 99
- Minner, Stefan:** *Multi-Product Replenishment Strategies under a Joint Capacity Constraint* 74
- Missler-Behr, Magdalena:** *Kundensegmentierung auf Basis der logistischen Regression* 100
- Missler-Behr, Magdalena:** *Ein Stichprobenmodell zur Retourenkontrolle* 156
- Mönch, Lars:** *Scheduling Jobs with Incompatible Families on a Single Batch Processing Machine Using Tabu Search* 74
- Mönch, Lars:** *A Decision Theory Approach for Scheduling Jobs with Unequal Ready Times and Incompatible Families on a Single Batch Processing Machine* 95
- Mombaur, Katja D.:** *Stability Optimization of Periodic Processes with Discontinuities* 119
- Montenegro, Eduardo:** *Dimension of Orbit in Graph* 131
- Monz, Michael:** *Modelling Clinical Decision Processes for Radiotherapy Planning* 105
- Müller, Alfred:** *A New Class of Lifetime Distributions: The M-class* 139
- Müller-Bungart, Michael:** *Network Revenue Management: Some Issues on Upper and Lower Bounds* 61
- Naidenko, Vladimir:** *On Directional Convex Hulls* 131

- Nelissen, Franz:** *Mathematical Optimization in Finance: Closing the Gap* 110
- Nemhauser, George L.:** *Robust Airline Scheduling – Can Theory be Extended to Practice?* 23
- Nickel, Nils-Holger:** *Umsetzung von Muster-Portfolio-Strategien im Rentenfondsmanagement* 110
- Nickel, Stefan:** *Planning Patient Transports in Hospitals - Insights and a Project Report* 105
- Nikulin, Yury:** *Sensitivity Analysis of Vector Discrete Optimization Problems* 131
- Omar, Mohamed Khaled:** *A Mixed Integer Programming Approach for the Development of Production Planning in the Process Industry* 74
- Ommeren, Jan-Kees van:** *Location of Repairshops in a Stochastic Environment* 75
- Orlovich, Yury:** *P_3 -dominable Graphs* 132
- Oswald, Marcus:** *Solving Coupled Task Problems to Optimality* 132
- Oussedik, Sofiane:** *to be announced* 132
- Oyama, Daisuke:** *Monotone Methods for Equilibrium Selection under Perfect Foresight Dynamics* 151
- Pankratz, Giselher:** *A Genetic Algorithm Based Approach for Solving the Dynamic Pickup and Delivery Problem with Time Windows* 87
- Papadopoulos, Konstantinos:** *Herausforderungen für das Ertragsmanagement im kombinierten Güterverkehr* 62
- Paschenko, Mikhail:** *A New Tabu Search Algorithm for the Generalized Assignment Problem* 132
- Pawlak, Grzegorz:** *Scheduling Tasks in a Two Machines Flow Shop with Transportation* 96
- Petrick, Anita:** *A New Hybrid Method for the Detection of Outliers in an Airline's Booking Data* 62
- Pfeiffer, Thomas:** *Integrated Incentive Plans and Capital Budgeting* 156
- Pfetsch, Ulrich:** *The Fractional Prize-Collecting Steiner Tree Problem* 133
- Pfetsch, Marc:** *Strategic Planning in Public Transport* 87
- Pibernik, Richard:** *Planungsmodelle zur Unterstützung eines zentralen und dezentralen Supply Chain Planning* 75
- Pickl, Stefan:** *Management and Optimization of Environmental Data within Emission Trading Markets - VEREGIS-TER and TEMPI* 106
- Pickl, Stefan:** *Cluster Techniques, Polytopes and the Optimization of Search Strategies within the Analysis of DNA-Expression Data* 133
- Piepenbrock, Georg:** *Integration von Simulation in die Prozessplanung* 24
- Pirchegger, Barbara:** *Choice of Managerial Performance Measures and Their Effect on Incentives for Takeovers* 157
- Plyasunov, Alexander:** *The Bilevel Optimization Problems with a Multiple-Choice Knapsack Problem on the Lower Level* 119
- Popova, Olga:** *Optimization of the Economical Decisions on the Basis of Reflexive Information Technology – VINT-SELLING* 65
- Poukliakova, Lana:** *Modeling Brand Loyalty* 100
- Protsenko, Artem:** *Imitation Model of the Metal Market Functioning* 150
- Prümer, Birgit:** *Eine induktive Lernstrategie zur Verarbeitung sicherer Regeln* 159
- Quadt, Daniel:** *An Integrated Lot-Sizing and Scheduling Approach for Flexible Flow-Lines* 75
- Queiruga, Dolores:** *Standortplanung für Elektronikschrott-Recyclingunternehmen in Spanien* 106
- Ramik, Jaroslav:** *Duality in Fuzzy Linear Programming Based on Fuzzy Relations* 143
- Recht, Peter:** *Redundancies in Positive-Semidefinite Quadratic Programming* 120
- Reents, Gerriet:** *Vermittlung von Fahrgemeinschaften betrachtet als Vehicle Routing Problem* 87
- Reimann, Marc:** *Using MST Information for Solving the TSP with an Ant System* 88
- Reiners, Torsten:** *SimTool - eine Plattform zum Design interaktiver Kurse im Bereich Simulation* 113
- Reiners, Torsten:** *Die adaptive virtuelle Lernumgebung SMARTFRAME* 160
- Reinholz, Andreas:** *Iterated Local Search, Variable Neighborhood Search and Hybrid Evolutionary Algorithms for Periodic Multiple Depot Vehicle Routing Problems* 88
- Reiß, J. Philipp:** *On Participation and Bidding in Sequential Procurement Auctions* 152
- Reucher, Elmar:** *Konditionale als Mittel zur Modellierung von Zeitformen* 143
- Riedel, Silvia:** *Adaptive Mechanisms in an O&D Demand Forecasting System* 63
- Rohde, Jens:** *Application of Neural Networks in Advanced Planning* 144
- Rücker, Thomas:** *Analysis and Optimization of Production Authorization Card Controlled Complex Manufacturing Systems* 76
- Sass, Jörn:** *Portfolio Optimization under Partial Information: Parameter Estimation in a Hidden Markov Model* 139
- Schäfer, Andreas:** *A Fast Optimal Control Algorithm with Application to Chemical Engineering* 120
- Scheubrein, Ralph:** *Strukturierung von Wissensdatenbanken mit Hilfe der Metapher „Lernziel“* 160
- Schlecht, Volker:** *A New Algorithm for Fuzzy Two-Mode Clustering* 100
- Schleusener, Martin:** *Leistungsabstimmung von Produktionslinien in der Elektronikmontage* 76
- Schmidt-Mänz, Nadine S.:** *Measurement of Online Visibility* 100
- Schneider, Torsten:** *A New TSP-Based Heuristic Approach to Load Balancing in a Conveyor Flow Shop* 76
- Schömig, Alexander:** *On Experiences Using the Operating Curve Methodology for Controlling and Performance Evaluation of Semiconductor Chip Manufacturing* 77
- Schön, Cornelia:** *Service Pricing & Revenue Management: An Integrated Approach of Marketing and Operations* 63
- Schönberger, Jörn:** *Combined Request Selection and Transport Planning – Models and Algorithms* 89
- Schöndube, Jens Robert:** *Performancemessung und Informationsgehalt in einer Agency-Beziehung mit beschränkter Selbstbindungskraft* 157
- Scholz, Sören W.:** *Konzeption eines intelligenten Systems zur Überwachung unternehmensrelevanter Marktentwicklungen* 101

- Schoner, Peter:** *Ein heuristisches Verfahren auf Basis von Prioritätsregeln zur Produktionsplanung in der Prozessindustrie* 77
- Schröder, Michael:** *Fast Heuristics for Territory Design* 77
- Schroll, Alexandra:** *Dienstplanbewertung mit unscharfen Regeln* 144
- Schulte, Gregor:** *Unternehmensübergreifende Losgrößenplanung mit dem Verfahren nach Blackburn-Millen* 78
- Schwarz, Maïke:** *On a Queueing System with Inventory Management* 140
- Schwindt, Christoph:** *Scheduling with Storage Resources* 78
- Seifi, Abbas:** *Robust Portfolio Selection Using Yield Maximization* 110
- Simchi-Levi, David:** *Coordinating Inventory Control and Pricing Strategies with Random Demand and Fixed Ordering Cost* 25
- Sladky, Karel:** *On the Set of Optimal Policies in Variance Penalized Markov Decision Chains* 140
- Slowinski, Roman:** *Knowledge Discovery From Preference-Ordered Data Via Rough and Granular Computing* 25
- Soukhikh, Sergey:** *Tabu Search Algorithm for the Resource Constrained Project Scheduling Problem with Profit Reinvestment* 96
- Spengler, Thomas:** *Fuzzy-Szenario-Management* 144
- Spinler, Stefan:** *Capacity Reservation for Capital-Intensive Technologies* 28
- Spitter, Judith Maria:** *Methods for Balanced Allocation in Mathematical Programming Models for Supply Chain Operations Planning* 78
- Staack, Yvonne:** *Determinants and Behavioral Consequences of Customer Loyalty and Dependence in Online Brokerage: Results from a Causal Analysis* 101
- Stark, Christoph:** *Scheduling Regular and Temporary Employees with Qualifications in a Casino* 96
- Starostina, Tatiana:** *Using Conception of Maximal p -Partite Structure of Fuzzy Graph for Classification Problem* 145
- Stauß, Bernd:** *Product Bundling as a Marketing Application* 101
- Stecca, Giuseppe:** *A Negotiation Protocol for E-Procurement Process* 161
- Stecca, Giuseppe:** *A Multi-Agent Model to Improve SMEs E-Procurement Process* 161
- Stein, Oliver:** *Constraint Qualifications for Non-Smooth Optimization Problems with Applications to Design Centering* 120
- Steinbach, Marc:** *Operative Planning in Drinking Water Supply: A Case Study* 89
- Stephan, Jörg:** *Unternehmensbewertung bei atmender Verschuldung und Insolvenzzrisiko* 157
- Stolletz, Raik:** *Performance Analysis and Optimization of Inbound Call Centers* 28
- Straßberger, Mario:** *How to Control Dynamically Market Risk Setting Risk Limits?* 110
- Streichert, Felix:** *Using Hybrid Evolutionary Computation Algorithms for the Cardinality Constrained Portfolio Selection Problem* 111
- Stuber, Martina:** *Combining Mathematical Programming and Constraint Logic Programming* 133
- Sürrie, Christopher:** *Campaign Planning with Time-Indexed Model Formulations* 79
- Suhl, Leena:** *A Decision Support System for Recovery Management in Public Transport* 161
- Suhl, Uwe:** *Improved Supernode Processing for Integer Programming* 134
- Sural, Haldun:** *Coordination in Economic Production Quantities* 79
- Tasche, Dirk:** *Calculating Concentration-Sensitive Capital Charges with Conditional Value-at-Risk* 111
- Theis, Dirk Oliver:** *Separation of R-Odd Cut Constraints for Routing Problems* 134
- Thiel, Rüdiger:** *Low Cost Carrier - ein neues Feld für Revenue Management* 63
- Thoma, Patrick:** *Using Multidimensional Scaling in Recommender Systems* 102
- Thonemann, Ulrich:** *Coordination of Pricing and Inventory Control Across Products* 64
- Tijms, Henk:** *An Approximation for Waiting-Time Percentiles for the Finite-Capacity Multi-Server Queue* 140
- Topaloglu, Seyda:** *Comparison of Different Search Heuristics Proposed for a Constraint-Based Solution Approach to the Job Sequencing Problem* 145
- Tran, Van Hoai:** *A Parallel Approach to the Pricing Step in Crew Scheduling Problems* 97
- Trautmann, Norbert:** *A Priority-Rule Based Method for Batch Production Scheduling in the Process Industries* 79
- Trinka, Hans L.:** *A Knowledge Box for Dynamic Multicriteria Decision Support* 162
- Turkan, Yusuf Sait:** *A Solution Proposition For The Decision Problem Defining The New Routes of Istanbul Hydrofoils* 150
- Ulmer, Holger:** *Optimization by Gaussian Processes Assisted Evolution Strategies* 145
- Varmaz, Armin:** *Neuerungen im Bereich der Data Envelopment Analysis und deren Einsatz im Bankensektor* 111
- Velten, Sebastian:** *Heuristic Solution Methods for a Dynamic Location Model with Inventory* 134
- Vogel, Silvia:** *Stochastic Optimization and Statistical Estimates* 150
- Volf, Petr:** *On Random Sums and Compound Process Models in Financial Mathematics* 140
- Voß, Stefan:** *On the Relationship between Geodetic and Steiner Numbers of Graphs* 135
- Vries, Sven de:** *On Ascending Vickrey Auctions for Heterogeneous Objects* 152
- Wäscher, Gerhard:** *Revenue Management und Dynamic Pricing im Rahmen der GOR (Diskussion)* 60
- Wagner, Udo:** *Ein einfaches Modell zur Bestimmung des Markenwechselverhaltens auf Konsumgütermärkten* 102
